

30 July 1962

MEMORANDUM FOR: Deputy Director (Plans)

1. The attached papers must be considered together. It would appear to me that our action in turning down certain of the Army requests to conduct clandestine operations in Southeast Asia contravenes the intent of USIB Action D-63.3/2 dated 16 November 1961. It would also appear that by asking to use [redacted], we have opened ourselves wide for the quid pro quid requested by General Fitch in his attached personal note to me.

2. Please study these papers and come up and talk to me when you are ready, preferably before the end of this week.

Marshall S. Carter
Lieutenant General, USA
Deputy Director

MSC:blp
